

Gender, Sexuality and Identity

Identity - Video 2

Christine D:

I went one place for acupuncture, and it was an agency in the city here, and all they had on it was 'female' and 'male', and I handed the form back to her. I said, "When you include me, I'll sign the form, but I'm still here for my treatment." I got a call from the supervisor about three days later, and said, "What would you like put on the form?" And I said, "Well, how about 'male', 'female' or 'identifies as'. Give us an option."
